[www.blueridgecorvetteclub.com](http://www.blueridgecorvetteclub.com)

The monthly meeting for September will be held at Eavers Classic Car Museum on Monday, September 10<sup>th</sup>, 7:00PM.

Corvettes at Carlisle is coming up this weekend! Ledford will be taking the tent and banner up. He will also bring the tent back on Saturday unless we have someone who would be willing to bring it back on Sunday. Please contact Rick Hicklin if you think you might be able to bring it back so it can stay up there an extra day. We will be renting the same spots, L53 & L54 this year. If you wish to sell a vehicle, the fee is \$100.00, and the price for selling parts is 10% of the selling price.

**September 8<sup>th</sup> - Chili Brews and Blues Event in Waynesboro. 11:00AM-5:00PM.** Please plan on being there by 10:30. Let's show everyone how proud we are of our beautiful Corvettes and come out in full force! **We will need a count of how many people plan to attend and how many vettes you will be bringing to show. We need to have as accurate count as possible so as to assure ample parking is available for all who attend. If you haven't let Phil know you are coming please do so right away.** Please contact Phil Kania to let him know, either via phone or e-mail. His phone # is (540) 887-8460 and e-mail: [PMKania@aol.com](mailto:PMKania@aol.com).

As you may know Les Ramsey had surgery recently. He is doing much better now. We all wish Les a speedy recovery. Thanks to Phil Kania for putting out all the e-mail updates on his progress.

There were 39 members attending the meeting at the Blue Ridge Café earlier this month. We also had some new members to vote on bringing our membership total to 70. Let's keep up the good work bringing in new people!

## **Trivia and Fun Facts**

Last month's question asked if you knew what year the ZO6 wheels were "cast spun" instead of forged, that saved 1.3 pounds of weight per car? The answer is the '02 models! This month's question asks if there were 30,464 Corvettes built in 73, why then did the last one built have a serial number that ended in 34,464?
